DETAILED ACTION

- 1. Applicant's amendments and arguments presented on September 14, 2005 have been fully and carefully considered. Applicant's arguments regarding the obviousness-type double patenting rejection are persuasive. Accordingly, the obviousness-type double patenting rejection is withdrawn. However, with respect to the 112, 2nd paragraph rejection of claim 5, applicant's amendment does not obviate this rejection and the rejection will be repeated for reason delineated below. The claims remain free of the prior art.**
- 2. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 5, applicant recites "steel having a grade as defined by the Japanese JIS system selected from the group consisting of SUS, SLA and STPL." This claim is indefinite and unclear. Applicant is required to clearly, and distinctly claim the type of steel used. Is the steel a high speed steel, a stainless steel, a ferrous steel. In the specification, applicant recites a "high brittleness steel" for the support which is not clear.**

Applicant should be able to generically claim the type of steel used. In order for applicant not to add new matter to the specification.

Applicant is requested to provide the listing of grades of steel from a technical brochure or from the JIS system which delineates the composition of the steel to be used which should be incorporated into the specification for clarity purposes. This would not constitute a new matter situation.

3. Claims 1-4 and 6-28 are free of the prior art.

4. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

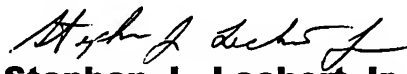

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
